

Beazer Homes Earns 2020 ENERGY STAR® Partner of the Year—Sustained Excellence Award

April 1, 2020

ATLANTA--(BUSINESS WIRE)--Apr. 1, 2020-- Beazer Homes is proud to announce that it has received the 2020 ENERGY STAR Partner of the Year Sustained Excellence Award for continued leadership and superior contributions to ENERGY STAR. Beazer's accomplishments are being recognized by the U.S. Environmental Protection Agency (EPA) and the U.S. Department of Energy (DOE) for the fifth year in a row.

Exceeding ENERGY STAR guidelines is central to Beazer Homes' commitment to delivering [Surprising Performance](#)—more quality, comfort, and savings—in every home it builds across 16 markets. The high-performing homes are the result of experienced people, industry-leading processes, and high-caliber materials that come standard in each home.

Beazer built more than 5,300 ENERGY STAR certified homes in 2019. Focusing on durability and energy efficiency, Beazer has reduced greenhouse emissions by over 13,000 metric tons of CO₂ in 2019 alone. Beazer has saved the environment more than 102,000 metric tons of CO₂ equivalent emissions since beginning their 100% ENERGY STAR commitment in 2011.

"I salute the 2020 ENERGY STAR award winners," said Anne Idsal, EPA Principal Deputy Assistant Administrator for Air and Radiation. "These leaders demonstrate how energy efficiency drives economic competitiveness in tandem with environmental protection."

The highest honor among ENERGY STAR awards is the ENERGY STAR Partner of the Year—Sustained Excellence Award. EPA presents the Sustained Excellence Award to partners that have already received ENERGY STAR Partner of the Year recognition for a minimum of two consecutive years and have gone above and beyond the criteria needed to qualify for recognition. Winners hail from small, family-owned businesses to Fortune 500 organizations—representing energy-efficient products, services, new homes, and buildings in the commercial, industrial, and public sectors.

About ENERGY STAR

ENERGY STAR® is the government-backed symbol for energy efficiency, providing simple, credible, and unbiased information that consumers and businesses rely on to make well-informed decisions. Thousands of industrial, commercial, utility, state, and local organizations—including more than 40 percent of the Fortune 500 companies—rely on their partnership with EPA to deliver cost-saving energy efficiency solutions. Since 1992, ENERGY STAR and its thousands of partners helped American families and businesses save more than 4 trillion kilowatt-hours of electricity and achieve over 3.5 billion metric tons of greenhouse gas reductions. In 2018 alone, ENERGY STAR and its partners helped Americans avoid nearly \$35 billion in energy costs.
