Beazer Homes Launches Energy Series Ready Homes at Pine Mountain Park in Kennesaw, Ga

May 24, 2023

Kennesaw, Ga. – May 24, 2023 – Beazer Homes is excited to announce its first Zero Energy Ready (Energy Series READY) homes in Atlanta at Pine Mountain Park in Kennesaw, Ga. Offering the most energy-efficient homes built by Beazer today, Energy Series READY homes can offset all or most of their annual energy consumption with renewable energy. Each Energy Series READY home built will be certified by the U.S. Department of Energy as a Zero Energy Ready Home™. The public is invited to attend the grand opening of Pine Mountain Park's second phase of homes on Saturday, June 10 from 10 a.m. to 2 p.m.

“Every home we build is designed with cutting edge, energy-efficient features,” said Kyle Lyne, Atlanta Division President for Beazer Homes. “With better home performance, customers can save money on energy bills, enjoy improved air quality for healthier living, and live more comfortably in their home.”

For more than 25 years, Beazer has been a leader in building homes ahead of current standards and beyond expectations. Beazer was the first U.S. national homebuilder to publicly commit that by the end of 2025, every home built will meet the requirements of the U.S. Department of Energy's (DOE) Zero Energy Ready Home program. The program incorporates building science innovations and practices to achieve at least 40%-50% greater energy efficiency than a typical new home. DOE Zero Energy Ready Homes are verified and certified by a qualified third-party inspector.

“At Beazer, we're building a legacy of sustainability with materials and practices that lower carbon emissions, conserve energy and water consumption, and reduce waste,” Lyne says. “We're proud of the partnerships we've created with industry leading companies who share our vision and enable us to stay on the cutting edge of trends, technology and efficiency.”

Additionally, Beazer's Energy Series READY homes are ENERGY STAR® certified and Indoor airPLUS® qualified by the U.S. Environmental Protection Agency (EPA). Behind the walls of each Beazer home are innovative, energy-efficient features and building practices to improve home performance and maintain ideal temperatures. Each home is designed to filter indoor air, which reduces outside pollutants like mold and toxic chemicals. This means healthier living with improved air quality and comfort.

Pine Mountain Park offers single-family detached homes, minutes away from the amenity-rich Swift-Cantrell Park. With five floorplans that range from 2,637 to 3,313 sq. ft., three to five bedrooms, 2.5 to 4.5 baths, current residents love the open floor plans, option to add a three-car garage and top-rated Cobb County schools. Pricing for Pine Mountain Park will start from the high \$500s.

Phase 2 of Pine Mountain Park is opening to the public on Saturday, June 10 from 10am – 2pm at 4402 Maple Oak Court, Kennesaw, GA 30152. Join us and tour our newest floorplan and model home, the Riverside, and learn more about how our Net Zero Energy Ready homes are built for tomorrow, today.

About Beazer Homes

Headquartered in Atlanta, Beazer Homes (NYSE: BZH) is one of the country's largest homebuilders. Every Beazer home is designed and built to provide Surprising Performance, giving you more quality and more comfort from the moment you move in – saving you money every month. With Beazer's Choice Plans™, you can personalize your primary living areas – giving you a choice of how you want to live in the home, at no additional cost. And unlike most national homebuilders, we empower our customers to shop and compare loan options. Our Mortgage Choice program gives you the resources to easily compare multiple loan offers and choose the best lender and loan offer for you, saving you thousands over the life of your loan. We build our homes in Arizona, California, Delaware, Florida, Georgia, Indiana, Maryland, Nevada, North Carolina, South Carolina, Tennessee, Texas, and Virginia.
