

Beazer Homes Reports First Quarter Fiscal 2010 Results

February 5, 2010

ATLANTA, Feb 05, 2010 (BUSINESS WIRE) -- Beazer Homes USA, Inc. (NYSE: BZH) (www.beazer.com) today announced its financial results for the fiscal quarter ended December 31, 2009. Summary results of the quarter from continuing operations are as follows:

Quarter Ended December 31, 2009

- Income from continuing operations of \$44.5 million, or \$1.09 per diluted share, including non-cash pre-tax charges of \$8.8 million for inventory impairments. The results also include a benefit from income taxes of \$2.24 per diluted share from continuing operations, as further described below. For the first quarter of the prior fiscal year, the Company reported a loss from continuing operations of \$79.2 million, or \$2.05 per share.
- Total revenue: \$218.8 million, compared to \$218.2 million in the first quarter of the prior year.
- Home closings from continuing operations: 961 homes, an increase year-over-year of 8.0%.
- New orders from continuing operations: 728 homes, an increase year-over-year of 36.6%.
- Cancellation rate improved to 26.9% in the first guarter compared to 46.1% in the first guarter of the prior year.
- Gross profit margin of 8.8% (12.9% without impairments and abandonments), compared to 5.6% (11.3% without impairments and abandonments) in the first quarter of the prior year.
- During the quarter, the Worker, Homeownership and Business Assistance Act of 2009 was enacted allowing the Company to carry back a portion of our fiscal 2009 federal tax losses. We filed an application for a federal income tax refund of approximately \$101 million as a result of this legislation. We recorded a related income tax benefit of approximately \$101 million in the quarter, of which approximately \$94 million is included in net income from continuing operations.

As of December 31, 2009

- Total cash and cash equivalents: \$480.5 million, including restricted cash of \$47.7 million.
- Stockholders' equity: \$247.3 million.
- Backlog: 960 homes with a sales value of \$232.3 million compared to 961 homes with a sales value of \$226.5 million as of December 31, 2008.

Ian J. McCarthy, President and Chief Executive Officer, said, "During our first fiscal quarter, we were encouraged by the improvement in our new home sales. While it is premature to signal the beginning of a sustainable recovery in the housing market, we are seeing indications that historically high levels of home affordability, home price stability, low mortgage interest rates and home buyer tax credits may be beginning to balance out prospective home buyers' concerns about falling home prices, foreclosures, and risk of job loss in most of our markets." Mr. McCarthy continued, "We are also pleased with the progress we made in improving our balance sheet, both during and after the end of the quarter. The increase in equity and reduction in debt better position us to fully participate in the eventual housing recovery."

Results for the Quarter Ended December 31, 2009

Homebuilding revenues from continuing operations declined 1.5% in the first quarter, due to an 8.8% decline in average sales prices offset partially by an 8.0% increase in the number of homes closed compared to the same period of the prior year. Net new home orders from continuing operations increased 36.6% compared to the first quarter of last year, driven by a 41.1% increase in new orders in the West segment. The cancellation rate for the first quarter improved to 26.9%, compared to 46.1% a year ago.

Overall, margins continued to be impacted by a challenging homebuilding environment, impacting both closing volumes and pricing, and by non-cash pre-tax charges for inventory impairments and lot option abandonments of \$8.8 million for the quarter ended December 31, 2009. Compared to the first quarter of the prior year, however, gross profit margin improved to 8.8% (12.9% without impairments and abandonments), compared to 5.6% (11.3% without impairments and abandonments) in the first quarter of the prior year.

The Company controlled 29,784 lots at December 31, 2009 (83% owned and 17% controlled under options), including 738 owned lots in discontinued operations. This reflects a reduction of 18.7% from the level at December 31, 2008 and 2.8% from the level at September 30, 2009.

As of December 31, 2009, unsold finished homes totaled 291, a decline of approximately 42.1% from the level a year ago.

Liquidity and Liability Management Initiatives

At December 31, 2009, the Company had cash and cash equivalents of \$480.5 million, including restricted cash of \$47.7 million to collateralize outstanding letters of credit.

As previously reported, on January 12, 2010, the Company closed its concurrent public offerings of 22,425,000 shares of its common stock and \$57.5 million mandatory convertible notes, a portion of the proceeds from which were used to repay our outstanding 2011 Senior Notes at par. Net proceeds

of these transactions, after the debt repayment were approximately \$24 million. In addition, on January 15, 2010, we completed a partial exchange of \$75 million of our outstanding Junior Subordinated Notes. We expect to record a gain related to this transaction between \$54 million and \$61 million during our second fiscal quarter of fiscal 2010. These initiatives would have increased our stockholders' equity from approximately \$247 million to approximately \$397 million on a pro forma basis as of December 31, 2009. Our tangible net worth (stockholders' equity less certain intangible assets as defined in our senior note indentures) would also increase, on a pro forma basis by approximately \$150 million to approximately \$339 million at December 31, 2009. We believe presentation of our tangible net worth on a pro forma basis is important as certain of our debt instruments include covenants linked to tangible net worth.
