Record Earnings for December Quarter

"We are pleased to announce strong financial results for our first quarter of fiscal 2004," said President and Chief Executive Officer Ian J. McCarthy. "Our home closings, revenues and new orders were all December quarter records, indicating continued strength in the housing industry and Beazer Homes' position in the market. This was accompanied by record earnings for the quarter, illustrating our ongoing commitment to achieving profitable growth by leveraging our size, scale and geographic reach, and continuing to execute specific growth and profitability initiatives."

"Beazer Homes' backlog now stands at 7,122 homes with a sales value of \$1.65 billion, up 15% and 34%, respectively, from the backlog homes and sales value at December 31, 2002. This sizable backlog increase provides excellent visibility as we move forward in fiscal 2004," added McCarthy.

Strong Financial Position; Profit Margin Expansion in December Quarter

"Beazer Homes' financial position remained strong during the first fiscal quarter," said James O'Leary, Executive Vice President and Chief Financial Officer. "At December 31, 2003, debt to total capitalization and net debt to total capitalization stood at 48% and 45%, respectively, with a cash balance of \$102.2 million. Furthermore, we achieved continued profit margin improvement as we continue to execute on our profit improvement initiatives."

During the first fiscal quarter of 2004, the Company increased both its gross margin and operating margin by 90 basis points compared to the same period a year ago, inclusive of increased marketing expenses associated with the Company's initiative to strengthen and leverage its brand identity. This improvement reflects continued strong industry fundamentals and continued emphasis on improved profitability. These gains were achieved despite weaker performance in the Company's Midwest operations and the inclusion of additional warranty expenses associated with construction defect claims from water intrusion at one of its Midwest divisions. The Company intends to focus efforts on improving performance in the Midwest operations and is commencing a strategic and financial review of these operations to develop an improvement plan. At this time the elements and any related costs or financial impact of such improvement plan can not be determined or estimated.

"Our strong backlog coupled with our expectations of continued strength in the housing market provide us confidence in our future growth opportunities," said McCarthy. "In addition, we expect continued execution on our strategic initiatives that leverage our national brand, capitalize on our broad geographic profile through focused product expansion and price-point diversification, and drive best practices to achieve optimal efficiencies, will place us in a strong position for continued growth. As such, we reiterate our expectation of generating diluted earnings per share in the range of \$14.00 - \$14.75 in fiscal 2004, representing approximately 10-15% growth over fiscal 2003."

Beazer Homes USA, Inc., headquartered in Atlanta is one of the country's ten largest single-family homebuilders with operations in Arizona, California, Colorado, Delaware, Florida, Georgia, Indiana, Kentucky, Maryland, Mississippi, Nevada, New Jersey, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Texas and Virginia.
