

## Beazer Homes Hosts Grand Opening For Solaris At Indian Springs

August 19, 2020

LAS VEGAS – AUGUST 19, 2020 – Beazer Homes, one of the nation’s largest home builders, is excited to host the grand opening of its newest community, Solaris, on Saturday, September 12, from 11 a.m. to 5 p.m. The community is located just 45 minutes northwest of Las Vegas in Indian Springs at the intersection of East Boulder Lane and MacFarland Avenue near Creech Air Force Base.

Solaris will feature 188 single-family homes set against a serene desert backdrop. Residents will enjoy a large onsite park with a gazebo and BBQ area, amenities in the quaint neighboring Indian Springs community, such as Indian Springs Park, Indian Springs library, and local eateries, as well as hiking and other outdoor recreation in nearby Cold Creek and Mt. Charleston. Families will also have access to well-rated Indian Springs schools, which are part of the Clark County School District.

Affordably priced from the low \$200,000s, Solaris will offer five beautifully designed single and two-story floorplans with living space ranging from 1,536 to 3,166 square feet. All layouts include popular design elements such as open concept kitchens, spacious primary bedroom suites, and two or three-car garages. Solaris’ two-story plans also feature up to five generous bedrooms and flex or loft spaces, designed especially for families seeking more space. Buyers are given the flexibility of Beazer’s [Choice Plans™](#), which provide the option to choose room-specific layouts to create their ideal living space, at no additional cost.

“Solaris is the most affordable detached community in the greater northwest Las Vegas area, with homes starting from the low \$200,000s,” said Steve Cervino, Las Vegas division president. “We are proud to offer top-quality, new

construction single- and two-story homes at incredible prices. Buyers will receive the same exceptional value found at all of our other communities throughout the Las Vegas valley.”

As with all Beazer developments, the homes at Solaris are designed to provide more quality, more comfort, and more savings from the moment homeowners move in. Beazer calls it [Surprising Performance](#)—the result of experienced people, industry-leading processes, and high-caliber materials coming together to build high-performing, energy efficient homes that save homeowners money every month.

In addition, Beazer offers [Mortgage Choice](#), with new technology for buyers to easily compare multiple lenders and loan offers. Lenders compete for business, each offering outstanding customer service, diverse home loan programs and competitive rates. Customers save thousands and enjoy great service when lenders compete, and customers compare and choose the right mortgage for their needs.

The first two models at Solaris will feature the [Willow](#) and [Summit](#) plans initially, with the [Sienna](#) plan soon to follow. During the grand opening, guests are invited to tour the models and learn about other available floor plans. The “Surprising Performance” room in the Willow model will showcase a deconstructed wall demonstrating how Beazer’s materials and construction methods give rise to superior energy efficiency in all its homes. Lenders will also be onsite to assist homebuyers with the loan pre-qualification process.
