Beazer Homes Earns 2022 ENERGY STAR® Partner of the Year – Sustained Excellence Award

May 5, 2022

ATLANTA--(BUSINESS WIRE)--May 5, 2022-- Beazer Homes is proud to announce that it has received the 2022 ENERGY STAR Partner of the Year – Sustained Excellence Award from the U.S. Environmental Protection Agency (EPA) and the U.S. Department of Energy (DOE). This is the seventh consecutive year in which Beazer Homes has earned this designation. The Sustained Excellence Award is the highest honor presented by the ENERGY STAR program.

“We’re honored to be recognized for our long-term commitment to building energy efficiency into each of our homes,” said Allan Merrill, President and CEO of Beazer Homes. “Our pledge to build 100% ENERGY STAR certified new homes—and exceeding the requirements of the program—is the very foundation of our team’s industry-leading energy efficiency goals.”

In December 2020, Beazer Homes became the first U.S. national homebuilder to publicly commit to ensuring that by the end of 2025, every home built will meet the requirements of the DOE Zero Energy Ready Home program. The program builds upon current HERS standards and the EPA’s ENERGY STAR program, incorporating other building science innovations and practices to achieve at least 40-50% greater energy efficiency than a typical new home.

“We know it’s going to take all of us working together to tackle the climate crisis, and the 2022 ENERGY STAR award-winning partners are demonstrating what it takes to build a more sustainable future,” said EPA Administrator Michael S. Regan. “These companies are showing once again that taking action in support of a clean energy economy can be good not only for the environment, but also for business and customers.”

Each year, the ENERGY STAR program honors a group of businesses and organizations that have made outstanding contributions to protecting the environment through superior energy achievements. ENERGY STAR award winners lead their industries in the production, sale, and adoption of energy-efficient products, homes, buildings, services, and strategies. These efforts are essential to fighting the climate crisis and protecting public health.

Winners are selected from a network of thousands of ENERGY STAR partners. For a complete list of 2022 winners and more information about ENERGY STAR’s awards program, visit energystar.gov/awardwinners.

About Beazer Homes

Headquartered in Atlanta, Beazer Homes (NYSE: BZH) is one of the country’s largest homebuilders. Every Beazer home is designed and built to provide Surprising Performance, giving you more quality and more comfort from the moment you move in – saving you money every month. With Beazer’s Choice Plans™, you can personalize your primary living areas – giving you a choice of how you want to live in the home, at no additional cost. And unlike most national homebuilders, we empower our customers to shop and compare loan options. Our Mortgage Choice program gives you the resources to easily compare multiple loan offers and choose the best lender and loan offer for you, saving you thousands over the life of your loan.

We build our homes in Arizona, California, Delaware, Florida, Georgia, Indiana, Maryland, Nevada, North Carolina, South Carolina, Tennessee, Texas, and Virginia. For more information, visit beazer.com, or check out Beazer on [Facebook](#), [Instagram](#) and [Twitter](#).

About ENERGY STAR

ENERGY STAR® is the government-backed symbol for energy efficiency, providing simple, credible, and unbiased information that consumers and businesses rely on to make well-informed decisions. Thousands of industrial, commercial, utility, state, and local organizations—including more than 40 percent of the Fortune 500®—rely on their partnership with the U.S. Environmental Protection Agency (EPA) to deliver cost-saving energy efficiency solutions. Since 1992, ENERGY STAR and its partners helped American families and businesses avoid more than \$500 billion in energy costs and achieve more than 4 billion metric tons of greenhouse gas reductions. More background information about ENERGY STAR's impacts can be found at www.energystar.gov/impacts and state-level information can be found at www.energystar.gov/statefacts.
