Beazer Homes Hosts Poppy Meadows Model Grand Opening Saturday

June 6, 2024

Sacramento, Calif. – June 6, 2024 – Beazer Homes is excited to announce the grand opening of its newest community, Poppy Meadows in Elk Grove, Calif. The grand opening will take place on Saturday, June 8 from 11 a.m. to 2 p.m. Homebuyers, realtors and neighbors are encouraged to attend to learn about the superior energy efficiency of homes at [Poppy Meadows](#). Attendees will enjoy a luau-themed event, indulge in delicious appetizers from Randy Peters Catering and hand-crafted shaved ice from the popular AnuAnu SnoBallz Shaved Ice Truck (as seen on Good Day Sacramento). There will also be activities for all ages.

Homes at Poppy Meadows are among the most energy-efficient homes built by Beazer today and include solar. Each home will be ENERGY STAR® certified, Indoor airPLUS qualified, and built so that the addition of solar could offset most, if not all, of the annual energy consumption of the home. Each Energy Series READY home built will be certified by the U.S. Department of Energy as a Zero Energy Ready Home™.

Poppy Meadows offers five floorplans ranging from 2,038 to 3,101 sq. ft., 3 to 6 bedrooms, 2 to 4 bathrooms, and 2 to 3 garages.

“The versatility of the floorplans is perfect to fit any family’s growing needs,” says Luke Wissman, division president of Beazer Homes. “Plus, homebuyers can expand their living space on select floorplans by opting for a private ensuite perfect for in-laws or a busy college student.

Poppy Meadows is located within the top-rated Elk Grove Unified School District and is just steps away from Oasis Community Park.

"This community checks all the boxes, providing upscale living and charming streetscapes in a well-established location close to dining, shopping, and major commute routes," Wissman says.
