For the second quarter of the prior fiscal year, the Company reported a loss from continuing operations of \$108.7 million, or \$2.81 per share, including non-cash pre-tax charges of \$42.9 million for inventory impairments and \$8.3 million of unconsolidated joint venture investment impairments.
- Total revenue: \$198.2 million, compared to \$186.6 million in the second quarter of the prior year.
- Home closings from continuing operations: 852 homes, an increase year-over-year of 5.6%.
- New orders from continuing operations: 1,673 homes, an increase year-over-year of 48.8%.
- Cancellation rate improved to 17.6% in the second quarter compared to 26.9% in the first quarter of this year and 29.8% in the second quarter of the prior year.
- Gross profit margin of 13.1% (18.3% without impairments and abandonments), compared to --11.9% (11.1% without impairments and abandonments) in the second quarter of the prior year.
- During the quarter, we received a federal income tax refund of approximately \$101 million. We had previously recorded a related income tax benefit of approximately \$101 million in the first quarter of fiscal 2010.
- As previously reported, on January 12, 2010, the Company closed its concurrent public offerings of 22,425,000 shares of its common stock and \$57.5 million of mandatory convertible subordinated notes, and used a portion of the proceeds from the offerings to repurchase debt including our outstanding 2011 senior notes at par. Net proceeds of these transactions, after the debt repayment (including accrued interest) were approximately \$24 million. In addition, on January 15, 2010, we completed a partial exchange of \$75 million of our outstanding junior subordinated notes and recorded a \$53.6 million gain related to this transaction during our second fiscal quarter of fiscal 2010.

As of March 31, 2010

- Total cash and cash equivalents: \$567.7 million, including restricted cash of \$43.3 million.
- Stockholders' equity: \$353.2 million not including \$57.5 million of mandatory convertible subordinated notes.

• Backlog: 1,781 homes with a sales value of \$394.5 million compared to 1,278 homes with a sales value of \$296.3 million as of March 31, 2009.

Ian J. McCarthy, President and Chief Executive Officer, said, "During the quarter we were able to substantially improve the Company's balance sheet and generate improved operating results. We have been encouraged by the early signs of improvement in our business, which started in the September 2009 quarter and have continued since. We recognize both the signs of improvement and the continued risks to a broad-based housing recovery, but we expect to see gradual improvement over time and we believe we are taking the right steps to position the Company to benefit from improving conditions in the years ahead."

Results for the Quarter Ended March 31, 2010

Homebuilding revenues from continuing operations increased 6.0% in the second quarter, due primarily to a 5.6% increase in the number of homes closed. Net new home orders from continuing operations increased 48.8% compared to the second quarter of last year, driven by a 26.8% increase in gross new orders and a reduction in the cancellation rate to 17.6%, compared to 29.8% a year ago.

Although margins improved both sequentially and as compared to the prior year, we continued to be impacted by a challenging homebuilding environment, impacting both closing volumes and pricing, and by non-cash pre-tax charges for inventory impairments and lot option abandonments of \$10.2 million for the quarter ended March 31, 2010. Our gross profit margin improved to 13.1% (18.3% without impairments and abandonments) for the current quarter compared to -11.9% (11.1% without impairments and abandonments) in the second quarter of the prior year. During the quarter we received reimbursements from subcontractors related to several legacy warranty issues. These non-recurring recoveries improved gross margin by approximately 220 basis points for the current quarter.

The Company controlled 29,764 lots at March 31, 2010 (83% owned and 17% controlled under options), including 733 owned lots in discontinued operations. Total controlled lots of 29,764 reflect a reduction of 13.5% from the level at March 31, 2009 and 2.9% from the level at September 30, 2009.

As of March 31, 2010, unsold finished homes totaled 244, a decline of 35.6% from the level a year ago.

Liquidity and Liability Management Initiatives

At March 31, 2010, the Company had cash and cash equivalents of \$567.7 million, including restricted cash of \$43.3 million primarily to collateralize outstanding letters of credit.

As previously reported, on January 12, 2010, the Company closed its concurrent public offerings of 22,425,000 shares of its common stock and \$57.5 million of mandatory convertible subordinated notes, and used a portion of the proceeds from the offerings to repurchase debt including our outstanding 2011 senior notes at par. Net proceeds of these transactions, after the debt repayment were approximately \$24 million. In addition, on January 15, 2010, we completed a partial exchange of \$75 million of our outstanding junior subordinated notes. We recorded a \$53.6 million gain related to this transaction during our second fiscal quarter of fiscal 2010. As a result of these transactions and our fiscal year-to-date results from operations, our stockholders' equity increased from \$196.6 million as of September 30, 2009 to \$353.2 million as of March 31, 2010. Our tangible net worth (stockholders' equity less certain intangible assets as defined in our senior note indentures) also increased by \$161.3 million fiscal year-to-date to \$298.3 million at March 31, 2010.
